25X1 dominent:

as The report confirms that component units of the 9th Tank liver stationed in OSCHATE. It is believed that the 27rd Tank Regt and, possibly, the 8th Ltz Rifle hogt are there.

b. The mention of an engineer unit is the Fliegerhorst Keserne indicates that the ? No. Engr Bn of the 9th Tank Div is stationed in OSCLATZ and not, as was previously assumed (July 1947), in ZEITHAIN.
